

AIR CONDITIONING REPAIR SERVICE OF THE YEAR

CAS Cool Air Services Ltd

There are many things in the modern world which can frustrate us. Nothing, however, is more likely to make you lose your cool than a broken air conditioner. Quite literally. One company helping people chill out when the mercury rises is Glasgow-based CAS Cool Air Services Ltd, whose five years in the business means you can rely on them to keep a cool head in a crisis. CAS provides a comprehensive array of refrigeration and air conditioning services including routine maintenance, installations and even emergency breakdown assistance.

The team at CAS are all experts in the industry, with a vast amount of experience and knowledge of all types and manufacturers of AC units; meaning they are able to diagnose and repair faults quickly and efficiently. All the engineers are F Gas qualified and hold all the relevant qualifications and certifications. Their vehicles are fully stocked with a wide range of spare parts to ensure your equipment is repaired as soon as possible with minimal disruption to your home or business. CAS offers repairs to all commercial refrigeration equipment including; cold rooms and walk in freezers, integral display cabinets, bottle coolers, ice machines and under counter fridges. In fact, for any and all refrigeration problems, be sure to call CAS.

“
